Mandla's story

Mandla was a 12 years old princess who left us due to a tragic accident. Mandla (Mandy) was sweet, smart, sensible, respectfull, funny, caring, humble, intelligent and full of energy and above all she loved to uplift others and give back to the community.

Mandla dreamed to be a mom of 4 and become a doctor.

Mandla had an extraordinary impact on everyone she knew so today we are honouring her life through a variety of social projects mainly directed towards children and people in need.

Mandla for homeless

Although we were unable to undertake specific projects for the homeless population in 2020, Our commitment to addressing this critical social issue remains unwavering. We recognize the ongoing challenges faced by individuals experiencing homelessness and look forward to exploring opportunities to support this vulnerable group in the future.

Our 2019 initiatives laid the groundwork for potential future collaborations with local organizations serving the homeless population. We will continue to assess how Mandla's Foundation can effectively contribute to addressing homelessness.

Food Bank

In 2020, we did not undertake specific food bank initiatives. However, our commitment to addressing food insecurity and supporting vulnerable populations remains.

We look forward to exploring opportunities to partner with local food banks in the future
